

To the Members of the California State Senate:

I am signing Senate Bill 1215 which shifts funds from the Environmental License plate and Public Resources Account between departments contained in the Resources and California Environmental Protection Agencies.

While I am supportive of the objectives of this measure, I am concerned that this bill has the potential to create unintended consequences that could affect the California Conservation Corps, the California Department of Forestry and the Water Resources Control Board. Therefore, I propose this measure be implemented consistent with the 2005-06 budget act. In that context, unintended impacts to departments can be identified and addressed.

Sincerely,

Arnold Schwarzenegger
